

Dear Hiring Manager,

I am writing to express my interest in the Reporting & Analytics position at Deloitte. I am a Computer Science Engineering graduate from Kalinga Institute of Industrial Technology (KIIT), with a CGPA of 8.51 and a strong foundation in data analytics, reporting, and data visualization.

My academic and project experience has provided me with hands-on exposure to Python, SQL, Excel, Power BI, data cleaning, data validation, trend analysis, and dashboard development. I have worked with large, multi-source datasets to derive meaningful insights and develop visual reports that support data-driven decision-making.

During my internship at Suyog Computech Pvt. Ltd., I further developed my analytical and problem-solving abilities through root-cause analysis, data validation, database optimization, and troubleshooting in an enterprise environment.

I am particularly interested in this opportunity at Deloitte because it aligns with my interest in analytics, reporting, data quality, and business insights. I am confident that my technical skills, analytical approach, and ability to learn quickly would enable me to contribute effectively to the team.

Thank you for considering my application. I would welcome the opportunity to discuss how my skills and background can contribute to Deloitte.

Yours sincerely,

Tanisha Mohanty

B.Tech, Computer Science Engineering

KIIT | CGPA: 8.51
