Education

Kalinga Institute of Industrial Technology

2022 – 2026

Bachelor of Technology in Computer Science Engineering, CGPA: 8.51

Bhubaneswar, Odisha

Technical Skills

Languages: Python, Java, SQL, JavaScript, C

Data Analytics: Data Analytics, Data Cleaning, Data Validation, Data Quality, Trend Analysis, Data Preprocessing, Feature Engineering

Data Visualization: Power Bi, Excel, Pivot Tables, Charts, Dashboards, PowerPoint

Data Engineering: PySpark, Apache Spark, ETL/ELT, Data Modeling

Databases and Cloud: AWS (EC2, S3), Azure, Data Warehousing, MySQL

Machine Learning and AI: Machine Learning, Predictive Modeling, Random Forest, Gradient Boosting, NLP

Tools: Git, CI/CD, Postman, Swagger, Linux

Experience

Suyog Computech Pvt. Ltd.

July 2025 – Oct 2025

Java Software Developer Intern

Bhubaneswar, India

- Developed backend services using **Java**, **Spring Boot**, **REST APIs**, and optimized **MySQL queries** for enterprise applications.
- Debugged application issues, performed **root cause analysis**, and resolved defects to improve system reliability.
- Implemented **Spring Security** authentication and conducted **API testing and validation** using Postman and Swagger.

Projects

AI-Driven Predictive Health Analytics for Community-Centric Disease Prevention

2024

Python, PySpark, Machine Learning, Data Analytics, Predictive Modeling

[IEEE Link](#)

- Processed **10,000+ healthcare records** from **5+ data sources**, applying data preprocessing and feature engineering across **50+ variables**.
- Built **Random Forest and Gradient Boosting** models achieving up to **92% accuracy** for predictive disease analysis.
- Generated **actionable insights and visual reports** to support data-driven decision-making; published at an **IEEE Conference**.

AI-Powered Customer Review Intelligence & Sentiment Analytics Platform

2025

Python, FastAPI, Machine Learning, NLP, Data Analytics

[GitHub Link](#)

- Developed an **end-to-end analytics platform** for sentiment analysis, emotion classification, and fake review detection.
- Built a **TF-IDF + LinearSVC** pipeline achieving **80–85% accuracy** with inference latency below **200ms**.
- Developed scalable **FastAPI REST services** using **100K+ multi-source records** for real-time customer feedback analytics.

World Happiness Data Analysis

2023

Python, Pandas, NumPy, Power BI

- Processed and cleaned global datasets using **Python**, **Pandas**, and **NumPy** for data analysis and validation.
- Analyzed **multi-year trends and relationships** across happiness, GDP, and governance indicators.
- Built interactive **Power BI dashboards** and visual reports to communicate insights and support data-driven decisions.

Achievements & Co-curricular Activities

- **AWS Certified Cloud Practitioner (2024)** — demonstrated proficiency in **20+ AWS services**, cloud security, billing models, and architectural best practices.
- **Linux Certified (2025)** — Red Hat System Administration I
- **Robotics Certification, IIT Kharagpur (Kshitij-24)** — built an **Arduino-based amphibious robot** using **10+ components** with successful land and water navigation.
- **National-Level Kathak & Modern Dancer** — performed at **15+ events**, including **Dance India Dance (DID)** and **India's Got Talent (IGT)**.
- **Robotics Projects** — developed **2 Arduino-based robots** (Droid Blitz, Embetronix) using **5+ sensors** and real-time motor control.
