EDUCATION

- Kalinga Institute Of Industrial Technology (KIIT) University** 2022 – 2026
Bachelors of Technology in Computer Science Engineering CGPA: 8.68
- DAV Public School Unit-8** 2022
Std XII ,CBSE Percentage: 90
- DAV Public School Unit-8** 2020
Std X,CBSE Percentage: 96

INTERNSHIPS

- SqidSquare Pvt Ltd** Jan 2025 – Apr 2025
Software Developer Intern Bhubaneswar,India
 - Developed and optimized text preprocessing, tokenization, and feature extraction pipelines using TF-IDF and Naïve Bayes, improving model prediction accuracy by 7
 - Improved application performance by implementing new features, debugging and validating modules, and collaborating with cross-functional teams to deliver reliable and scalable software solutions.
- The Cognitive** Mar 2026 – Jun 2026
Full-Stack AI Engineer Intern Bhubaneswar,India
 - Developed AI-driven automation workflows to optimize business processes, improving efficiency through intelligent task automation and workflow enhancements.
 - Contributed to full-stack web development by building backend functionalities, performing audit validations, and collaborating with cross-functional teams to deliver scalable and reliable AI-enabled applications.

PROJECTS

- Optimized Disease Prediction Framework using PSO and Wrapper-based Feature Selection**
Devised a disease prediction system for 5 conditions using SVM, Random Forest, and Logistic Regression.
 - Built and validated ML models (SVM, Random Forest, Logistic Regression) achieving 94.6% F1-score in Parkinson's prediction and 85.7% accuracy in Diabetes detection.
 - Enhanced model **performance by 12–18%** using Recursive Feature Elimination (RFE) and Particle Swarm Optimization (PSO).
- Spam Guard**
Developed a machine learning-based spam detection system to classify emails achieveing accuracy >95%.
 - Deployed an ML model using Naïve Bayes and TF-IDF vectorization and improve detection rates with **accuracy leading 96.65%** in spam detection.
 - Designed a real-time web application to handle and classify emails instantly as Spam (1) or Not Spam (0).
- Happiness Meter**
Transformed global data from 150+ countries into interactive visual insights on societal and economic trends over five years.
 - Processed **750+ data rows across 150+ countries** from the World Happiness Report using Python handling missing values and preparing structured datasets for data visualization.
 - Built interactive Power BI dashboards to compare **12+ regions** highlighting multi-year global and regional trends.

TECHNICAL SKILLS AND INTERESTS

Languages:Python, Java, C

Data Science:Machine Learning, Exploratory Data Analysis ,PowerBI ,Microsoft Excel, Gen AI , LLM (basics)

Developer Tools:HTML, CSS, JavaScript,Flask, REST APIs , Figma, Canva

Databases:MySQL

Soft Skills:Teamwork, Communication, Networking, Leadership,Team Management

POSITIONS OF RESPONSIBILITY

- Fellow Member:** Kreative Eye (Painting Society),KIIT Aug 2023 – Apr 2026
- Event Lead:**Lead at Kaius, Kiit Fest,Kiit IEEE conference Aug 2023 – Dec 2024

CERTIFICATIONS

- AWS Academy Certification-**AWS Cloud Foundation and Architecting Dec 2024
- Coursera-** IBM Data Science Jun 2025
